JOURNAL OF PATHOLOGY, VOLUME 117

INDEX OF SUBJECTS

PAGE

ADENOCARCINOMA, primary of the female urethra 97
ADRENOCORTICOTROPHIC HORMONE, immunohistochemical identification of hormone-producing cells in formalin-fixed, paraffin-embedded human pituitary tissue 163
ALCIAN BLUE method for the museum display of squamous metaplasia in the larynx 89
ALVEOLI, pathology of elastase-induced panacinar emphysema in hamsters . 1
ANEURYSM, ruptured coronary, and valvulitis in an infant with polyarteritis nodosa 83
AORTA, ultrastructure of organising experimental mural thrombi in the pig aorta 75
ARGININE metabolism, effects on the liver in the rat of ingestion of *Indigofera spicata*, a legume containing an inhibitor 195
ARTERIES, CORONARY, ruptured coronary aneurysm and valvulitis in an infant with polyarteritis nodosa . . 83
ARTERIES, PULMONARY, pathology of elastase-induced panacinar emphysema in hamsters 1
ARTERITIS, ruptured coronary aneurysm and valvulitis in an infant with polyarteritis nodosa 83
ARTERY, elasticity of the internal lamina . 253
ATROPHY, chronic gastritis, a simple classification 93
nature of muscular change in osteomalacia, light- and electron-microscope observations 211
AUTORADIOGRAPHY, localisation and pathology of *Mortierella wolfii* toxin in mice 33

BLOOD, relative roles of platelets and macrophages in clearing particles, value of carbon clearance as a measure of reticuloendothelial phagocytosis . 235
BONE growth changes in pyridoxine-deficient rats 131
BREAST, calcification in human carcinomas, ultrastructural observations . . 247
inflammatory damage to ducts in dysplasia, a cause of duct obliteration . 47
periductal foam cells in benign dysplasia 39

PAGE

CALCIFICATION in human breast carcinomas, ultrastructural observations . . 247
CARBON, relative roles of platelets and macrophages in clearing particles from the blood, value of carbon clearance as a measure of reticuloendothelial phagocytosis 235
CAROTID BODIES of rats living at a simulated altitude of 4300 metres, quantitative morphological study . . . 183
CELL(S), quantitative studies on cell-mediated immunity in the pleural cavity of guinea-pigs . . . 65
reticulum, in lymph-nodes from cyclophosphamide-treated thymectomised mice 119
ultrastructure of organising experimental mural thrombi in the pig aorta . 75
COLOBUS GUEREZA, pathology of measles in Abyssinian Colobus monkeys, description of an outbreak . . 229
COLON, pathological changes found in four Abyssinian Colobus monkeys dying of measles 229
squamous metaplasia in the healing of chronic ulcers in the rat . . . 15
CONDUCTING TISSUE, fibrosis in infancy . 123
"COT DEATHS" in four London boroughs between 1st January 1972 and 1st January 1974 investigated . . 55
CYCLIC AMP levels estimated, quantitative studies on cell-mediated immunity in the pleural cavity of guinea-pigs . 65
CYCLOPHOSPHAMIDE-treated thymectomised mice, study of fine structure of the reticulum cells in lymph-nodes . . 119

DEATH, sudden, in infancy in Inner North London 55
DEFORMITY, pathogenesis of diastematomyelia and spina bifida. 155
DEHYDROMONOCROTALINE administered to rats, topographic and electron-microscope study of pulmonary oedema . 23
DERMOID CYST of the spinal canal with atypical hidradenoma . . . 207
DIASTEMATOMYELIA and spina bifida, pathogenesis 155
DUCTS, BREAST, inflammatory damage in dysplasia, a cause of obliteration . 47
periductal foam cells in benign dysplasia 39

PAGE

ELASTASE-induced panacinar emphysema in hamsters, pathology . . . 1
ELASTICITY of the internal lamina . . 253
ELECTRON DIFFRACTION, ultrastructural observations of calcification in human breast carcinomas 247
ELECTRON-MICROSCOPE STUDY, analysis of the effect of ischaemia on testicular ultrastructure 105
calcification in human breast carcinomas, ultrastructural observations . . 247
fine structure of the reticulum cells in lymph-nodes from cyclophosphamide-treated thymectomised mice . . 119
long-term organ culture of human skin, ultrastructural and immunochemical study 139
nature of muscular change in osteomalacia 211
pulmonary oedema in rats given dehydromonocrotaline 23
relative roles of platelets and macrophages in clearing particles from the blood, value of carbon clearance as a measure of reticuloendothelial phagocytosis 235
ultrastructure of organising experimental mural thrombi in the pig aorta . 75
ELECTRON PROBE, calcification in human breast carcinomas, ultrastructural observations 247
EMPHYSEMA in hamsters, pathology of elastase-induced panacinar type . 1
ENDOTHELIAL CELLS, pulmonary oedema in rats given dehydromonocrotaline, topographic and electron-microscope study 23
ultrastructure of organising experimental mural thrombi in the pig aorta. . 75
EPENDYMA, experimentally induced glioma in the rat, origin linked with hyperplasia of the subependymal plate . 101
EPIPHYSIS, bone growth changes in pyridoxine-deficient rats . . . 131
EXUDATE, quantitative studies on cell-mediated immunity in the pleural cavity of guinea-pigs . . . 65

FERRITIN, pulmonary oedema in rats given dehydromonocrotaline, topographic and electron-microscope study . . 23
FIBROSIS of the conducting tissue in infancy 123
FOAM CELLS, periductal, in benign mammary dysplasia 39

GASTRITIS, chronic, a simple classification 93
GLIOMA experimentally induced in the rat, origin linked with hyperplasia of the subependymal plate . . . 101
GLOMIC CELLS, quantitative morphological study of the carotid bodies of rats living at a simulated altitude of 4300 metres 183
GROWTH of bone, changes in pyridoxine-deficient rats 131
GROWTH HORMONE producing cells in formalin-fixed, paraffin-embedded human pituitary tissue, immunohistochemical identification . . 163
GUINEA-PIGS, quantitative studies on cell-mediated immunity in the pleural cavity 65

HAMSTER(S), pathology of elastase-induced panacinar emphysema . . . 1
HEALING of chronic colonic ulcers in the rat, squamous metaplasia of the epithelium 15
HEART, fibrosis of the conducting tissue in infancy 123
quantitative morphological study of the carotid bodies of rats living at a simulated altitude of 4300 metres . . 183
HIDRADENOMA, atypical, arising in a dermoid cyst of the spinal canal . 207
HORMONE-producing cells in formalin-fixed, paraffin-embedded human pituitary tissue, immunohistochemical identification 163
HYPERPLASIA, subependymal plate and the genesis of gliomas 101
HYPERTENSION, elasticity of the internal lamina, study of normotensives and hypertensives 253
HYPERTROPHY, quantitative morphological study of the carotid bodies of rats living at a simulated altitude of 4300 metres 183
HYPOXIA, quantitative histological study on the carotid bodies of 10 normal rats and 10 rats living in a hypobaric chamber 183

IMMUNITY, ruptured coronary aneurysm and valvulitis in an infant with polyarteritis nodosa, possibility of an immune reaction to foreign antigens such as drugs or viruses considered . 83
studies on cell-mediated immunity in the pleural cavity of guinea-pigs . . 65
IMMUNOCHEMISTRY, study of long-term organ culture of human skin . . 139
IMMUNOHISTOCHEMISTRY, identification of hormone-producing cells in formalin-fixed, paraffin-embedded human pituitary tissue 163
INDIGOFERA SPICATA ingested by the rat, effects on the liver 195
INFANTS, fibrosis of the conducting tissue . 123

PAGE

pathogenesis of diastematomyelia and spina bifida 155
ruptured coronary aneurysm and valvulitis in a case of polyarteritis nodosa . 83
sudden deaths in Inner North London . 55
INFLAMMATION, damage to ducts in mammary dysplasia, a cause of duct obliteration 47
INTERNAL ELASTIC LAMINA, investigation *post mortem* from 48 cases, matched normotensives and hypertensives, males and females, from the 3rd to the 8th decades 253
ISCHAEMIA, squamous metaplasia in the healing of chronic colonic ulcers of the rat, production of ulcers by a transient ischaemic episode 15
ultrastructural changes in both testes of the rat after unilateral ligation of the testicular artery 105

KERATIN, long-term organ culture of human skin, ultrastructural and immunochemical study 139
KIDNEY, localisation and pathology of *Mortierella wolfii* toxin in mice . 33
KUPFFER CELL, relative roles of platelets and macrophages in clearing particles from the blood, value of carbon clearance as a measure of reticuloendothelial phagocytosis . . . 235

LARYNX, alcian blue method for the museum display of squamous metaplasia 89
LEGUME containing an inhibitor of arginine metabolism, effects on the liver in the rat after ingestion 195
LIVER, effects in the rat after ingestion of *Indigofera spicata* 195
histopathological changes following a paracetamol overdose, correlation with clinical and biochemical parameters . 169
primary malignant neurilemmoma (schwannoma) in a case of neurofibromatosis 151
LIVER CIRRHOSIS in the rat after ingestion of *Indigofera spicata* 195
LUNG oedema in rats given dehydromonocrotaline, topographic and electron-microscope study . . 23
pathology of elastase-induced panacinar emphysema in hamsters 1
pathology of measles in Abyssinian Colobus monkeys (*Colobus guereza*), description of an outbreak . . 229
sudden death in infancy in Inner North London 55
LYMPH-NODE, fine structure of the reticulum cells from cyclophosphamide-treated thymectomised mice 119

PAGE

pathological changes found in four Abyssinian Colobus monkeys (*Colobus guereza*) dying of measles . . 229

MACROPHAGES and platelets, relative roles in clearing particles from the blood, value of carbon clearance as a measure of reticuloendothelial phagocytosis . 235
MASTITIS, inflammatory damage to ducts, a cause of duct obliteration . . 47
MEASLES in Abyssinian Colobus monkeys (*Colobus guereza*), pathological changes observed during an outbreak . . 229
MENINGOCELE, pathogenesis of distematomyelia and spina bifida. 155
METAPLASIA, chronic gastritis, a simple classification 93
squamous, in the healing of chronic colonic ulcers of the rat . . . 15
squamous, in the larynx, alcian blue method for museum display . . 89
MONKEY, pathology of measles in Abyssinian Colobus monkeys, (*Colobus guereza*), examinations made during an outbreak 229
MORPHOMETRY, histopathological changes in the liver following a paracetamol overdose, correlation with clinical and biochemical parameters . . . 169
quantitative morphological study of the carotid bodies of rats living at a simulated altitude of 4300 metres . 183
MORTIERELLA WOLFII toxin in mice, localisation and pathology . . 33
MOUSE(MICE) cyclophosphamide - treated thymectomised, fine structure of the reticulum cells in lymph-nodes . . 119
localisation and pathology of *Mortierella wolfii* toxin. 33
MUSCLE, nature of change in osteomalacia, light- and electron-microscope observations 211
MUSEUM display of squamous metaplasia in the larynx, alcian blue method . 89
MYOINTIMAL CELLS, ultrastructure of organising experimental mural thrombi in the pig aorta 75

NECROSIS seen in liver biopsies taken up to 6 days after paracetamol overdose . 169
NEURILEMMOMA, primary malignant (schwannoma) of the liver in a case of neurofibromatosis 151
NEUROFIBROMATOSIS, a case of primary malignant neurilemmal tumour of the liver 151

OEDEMA, pulmonary, in rats given dehydromonocrotaline, topographic and electron-microscope study . . . 23

PAGE

ORGAN CULTURE of human skin grown for periods of up to 18 weeks, ultrastructural and immunochemical study 139
OSTEOMALACIA, nature of muscular change, light- and electron-microscope observations 211

PARACETAMOL overdose, histopathological changes in the liver, correlation with clinical and biochemical parameters 169.
PERMEABILITY, pulmonary oedema in rats given dehydromonocrotaline, topographic and electron-microscope study 23
PHAGOCYTOSIS, relative roles of platelets and macrophages in clearing particles from the blood, value of carbon clearance as a measure of reticuloendothelial phagocytosis 235
PIG AORTA, ultrastructure of organising experimental mural thrombi . . 75
PITUITARY, immunohistochemical identification of hormone-producing cells in formalin-fixed, paraffin-embedded human tissue 163
PLATELETS and macrophages, relative roles in clearing particles from the blood, value of carbon clearance as a measure of reticuloendothelial phagocytosis . 235
PLEURA, quantitative studies on cell-mediated immunity in the pleural cavity of guinea-pigs 65
POLYARTERITIS NODOSA, ruptured coronary aneurysm and valvulitis in an infant . 83
PYRIDOXINE-deficient rats, bone growth changes 131

RADIO-IODINE (^{125}I), localisation and pathology of *Mortierella wolfii* toxin in mice 33
RAT(S), analysis of the effect of ischaemia on testicular ultrastructure . . 105
bone growth changes in pyridoxine-deficient rats 131
effects on the liver after ingestion of *Indigofera spicata*, a legume containing an inhibitor of arginine metabolism . 195
pulmonary oedema after administration of dehydromonocrotaline, topographic and electron-microscope study . . 23
quantitative morphological study of the carotid bodies of rats living at a simulated altitude of 4300 metres . 183
squamous metaplasia in the healing of chronic colonic ulcers . . . 15
subependymal plate and the genesis of gliomas 101
RETICULOENDOTHELIAL SYSTEM, relative roles of platelets and macrophages in clearing particles from the blood, value of carbon clearance as a measure of phagocytosis 235
RETICULUM CELLS, fine structure in lymph-nodes from cyclophosphamide-treated thymectomised mice . . 119
REVIEWS OF BOOKS
The pathology of the heart (E. G. J. Olsen) 63
Essentials of forensic medicine (C. J. Polson and D. J. Gee) . . . 63
Host environment interaction in the aetiology of cancer in man (ed. by R. Doll and L. Vodopija) . . . 64
Future trends in inflammation (ed. by G. P. Velo, D. A. Willoughby and J. P. Giroud) 193
Chemotaxis: its biology and biochemistry (ed. by E. Sorkin) 1963 . . . 193

SCHWANNOMA, primary malignant neurilemmoma of the liver in a case of neurofibromatosis 151
SKIN, human, long-term organ culture, ultrastructural and immunochemical study 139
SPERMATOZOA, analysis of the effect of ischaemia on testicular ultrastructure 105
SPINA BIFIDA and diastematomyelia, pathogenesis 155
SPINAL CANAL, atypical hidradenoma arising in a dermoid cyst. 207
SPINAL CORD, pathogenesis of diastematomyelia and spina bifida . . . 155
STOMACH, chronic gastritis, a simple classification 93

TESTIS, analysis of the effect of ischaemia on testicular ultrastructure . . 105
THROMBUS, ultrastructure of organising experimental mural thrombi in the pig aorta 75
THYMECTOMY of mice treated with cyclophosphamide, fine structure of the reticulum cells in lymph-nodes . . 119
TOXIN in mice (*Mortierella wolfii*), localisation and pathology 33
TUMOURS, ANIMAL, INDIVIDUAL, subependymal plate and the genesis of gliomas 101
TUMOURS, HUMAN, INDIVIDUAL, atypical hidradenoma arising in a dermoid cyst of the spinal canal 207
calcification in human breast carcinomas, ultrastructural observations . . 247
primary adenocarcinoma of the female urethra 97
primary malignant neurilemmoma (schwannoma) of the liver in a case of neurofibromatosis 151

PAGE

ULCERS, squamous metaplasia in the healing of chronic colonic ulcers of the rat 15
URETHRA, FEMALE, primary adenocarcinoma 97
URETHRITIS, tumour associated with urethritis glandularis 97
VALVULITIS and ruptured coronary aneurysm in an infant with polyarteritis nodosa 83
VIRUS, pathology of measles in Abyssinian Colobus monkeys (*Colobus guereza*), description of an outbreak . . . 229
